Courses to be considered at the meeting of March 8, 2012

Course Proposals for Review

1. **Nursing 702**: Health Promotion and Disease Prevention in Diverse Communities  
   *Type of proposal: Change in course description*  
   *Current:* Multidisciplinary approach for health promotion/disease prevention in diverse communities emphasizing the use of epidemiological psychosocial, and environmental data for aggregate/community assessment to determine shared risks, exposures, behaviors and interventions.  
   *Proposed:* Health promotion and disease prevention interventions are examined for populations, incorporating multidisciplinary approaches. Focuses on developing increased knowledge, appreciation, and skills for health promotion and disease prevention among diverse communities. Addresses epidemiological, individual, socio-economic, and environmental factors related to health status. Proposes strategies to reduce health disparities among vulnerable populations.
