Five-Year Average Research Doctoral Degree Recipients by Academic Major (2006-07 - 2010-11)

- Mean = 7
- Median = 5

Academic Majors (represented by bar lengths):
- Chemistry
- Electrical Engineering
- Biochemistry
- Curriculum and Instruction
- Cellular and Molecular Biology
- Physics
- Educational Leadership and Policy Analysis
- Computer Sciences
- English
- Mathematics
- Mechanical Engineering
- History
- Microbiology
- Sociology
- Chemical Engineering
- Economics
- Statistics
- Music Performance
- Genetics
- Materials Science
- Political Science
- Business
- Medical Physics
- Industrial Engineering
- Civil and Environmental Engineering
- Educational Policy Studies
- Pharmaceutical Sciences
- Neuroscience
- Mass Communications
- Nuclear Engineering and Engineering Physics
- Counseling Psychology
- Biomedical Engineering
- Plant Breeding and Plant Genetics
- Zoology
- Comparative Biomedical Sciences
- Communication Arts
- Cancer Biology
- Molecular and Cellular Pharmacology
- Philosophy
- Environment and Resources
- Anthropology
- Nutritional Sciences
- Food Science
- Molecular & Environmental Toxicology
- Educational Policy Studies
- Spanish
- Population Health
- Atmospheric and Oceanic Sciences
- Agricultural and Applied Economics
- Physiology
- Nursing
- Cellular and Molecular Pathology
- Social Work
- Human Ecology
- Geography
- Botany
- Rehabilitation Psychology
- Forestry
- Music
- German
- Biophysics
- Plant Pathology
- Astronomy
- Geology
- Enrich
- Theatre and Drama
- Special Education
- Special Graduate Committee
- Communication Disorders
- History of Science, Medicine and Technology
- Environmental Chemistry and Technology
- Endocrinology - Reproductive Physiology
- Entomology
- Development
- Art History
- Animal Sciences
- Soil Science
- Dairy Science
- Slavic Languages and Literatures
- Second Language Acquisition
- Limnology and Marine Science
- Languages and Cultures of Asia
- Indian
- Chinese
- Social and Administrative Sciences in Pharmacy
- Library and Information Studies
- Wildlife Ecology
- Classics
- Biological Systems Engineering
- Scandinavian Studies
- Sociology
- Hebrew and Semitic Studies
- Engineering Mechanics
- Agronomy
- Portuguese
- Japanese
- Horticulture
- Geophysics
- Comparative Literature
- Materials Engineering
- African Languages and Literature
- Urban and Regional Planning
- Linguistics
- Geological Engineering
