Doctoral Completions are based on entrance cohorts, determined by the first term that a student is in a PhD Plan in a given program, even if they earn a Master’s degree after that term or are enrolled in a master’s program in previous terms. A student who switches between programs will appear in multiple cohorts. A cohort consists of students whose first term in a doctoral program was in a Summer, Fall, or Spring term of a given year. For instance, the 2011 cohort is made up of students who started in Summer 2010, Fall 2010, and Spring 2011. Programs that have been discontinued or that were implemented after 2004 are not listed.

Peer programs chosen using U.S. Department of Education CIP codes.
