Re: Removal of Special Student from Institute on Aging Gerontology Certificate Program

For several years the Institute on Aging has offered a Certificate Program in Gerontology to graduate, undergraduate, and special students. The purpose of this message is to convey that we would like to remove this option for special students. The rationale is that we have learned that it is difficult, if not impossible, for special students to complete the Certificate, given restrictions on courses that are available to them. We would like this change to become effective immediately.

Please advise if additional information is needed to implement this change.
