For renamed and reorganized programs, antecedent programs are included in the trend counts under the new name. Counts are a sum of awards in the summer, fall, and spring term.

Recently approved majors in which no degrees have been awarded are not listed.

**Counts of Degree Majors** are given as the number of degree-majors. For example, a student earning two majors and one degree in one term is counted twice, once in each major.

**FTE Counts** are given as the FTE for each degree major. For example, a student earning two majors and one degree in one term is counted .5 in each major. The total FTE Count equals the number of degrees conferred for a given year.
